

Rishen Certified GRC Professional (RCGP)

Building Future Professionals in Governance, Risk & Compliance

Rishen | An initiative of Gaidyn LLP

About Rishen

Rishen is a professional education initiative focused on developing career-ready skills in Governance, Risk, and Compliance. Our programs bridge the gap between academic learning and real enterprise GRC practices.

About the RCGP Program

The Rishen Certified GRC Professional (RCGP) is a structured multi-level pathway designed to help learners understand GRC concepts and prepare for professional roles in risk, compliance, and governance functions.

Program Structure

Level 1 – GRC Foundations (Beginner)

- Introduction to Governance, Risk & Compliance
- Understanding organizational risk
- Basics of internal controls
- Compliance and policy structures
- Introduction to audits and frameworks

Level 2 – Risk & Controls Practitioner (Intermediate)

- Risk identification and documentation
- Risk assessment methods
- Inherent vs residual risk
- Types of controls and control mapping
- Understanding risk registers

Level 3 – GRC Analyst & Audit Readiness (Advanced Entry)

- Supporting audits and assessments
- Compliance documentation
- Governance structures in organizations
- Risk reporting and key indicators
- Introduction to GRC tools (conceptual)

Learning Outcomes

- Understand enterprise GRC environments
- Identify and assess risks
- Map risks to controls

- Understand compliance fundamentals
- Prepare for careers in GRC, Risk, and Compliance

Certification

Participants who meet program requirements are awarded the credential: 'Rishen Certified GRC Professional (RCGP)', issued by Rishen, an initiative of Gaidyn LLP.

Career Pathways After RCGP

- GRC Analyst
- Risk Analyst
- Compliance Analyst
- IT Risk Associate
- Internal Control Analyst
